New Gel Epoxy
No drip. No mess. No waste.
NEW

GEL EPOXY
No drip. No mess. No waste.

Permatex® Gel Epoxies revolutionize the traditional epoxy experience, delivering a noticeable improvement to the typical repair process. Its thicker, no drip gel formula means your repair is completed with no mess and no clamping. Permatex® Gel Epoxies are infused with a blue dye which disappears when the product is perfectly mixed – taking the guesswork out of when to apply it.

1 Minute Epoxy

Permatex® General Purpose 1 Minute Epoxy is a fast setting, high strength two-part adhesive and filler system specially formulated with a Blue Dye Indicator that disappears when it’s fully mixed and ready to use. The no drip gel formula ensures that each repair is completed with no mess and no clamping.

- General Purpose
- No clamp, no drip gel
- Blue dye disappears when mixed

BONDS TO:
Metals, Hard Plastics, Ceramics, Glass, Rubber and more!

Set Time: 1 min.  Cure Time: 5 min.  Finished Color: Clear

5 Minute Epoxy

Permatex® General Purpose 5 Minute bonds to surfaces with the flexibility to reposition before the setting time. The Blue Dye disappears indicating when it’s fully mixed and ready to use. The no drip gel formula ensures that each repair is completed with no mess and no clamping.

- General Purpose
- No clamp, no drip gel
- Blue dye disappears when mixed

BONDS TO:
Metals, Hard Plastics, Ceramics, Glass, Rubber and more!

Set Time: 5 min.  Cure Time: 10 min.  Finished Color: Clear

Item # 84101
Permatex® High Heat Epoxy is the only liquid epoxy available in a standard 2-part syringe that can withstand intermittent temperatures up to 500°F.

- Resists temperatures up to 500°F
- Underhood and automotive applications
- Chemical resistant

Item # 84102

2500 PSI SHEAR STRENGTH

BONDS TO:
- Metals, Hard Plastics, Ceramics, Glass, Rubber and more!

Set Time: 10 min.
Cure Time: 2 hr.
Finished Color: Amber

Permatex® Clear 2 Ton Epoxy is a general-purpose high strength epoxy designed to bond together rigid materials for a permanent hold.

- High-strength
- Fills gaps and will not shrink
- Long set time for multiple repairs

Item # 84133

4000 PSI SHEAR STRENGTH

BONDS TO:
- Ceramics, Fibreglass, Metal, Concrete and more!

Set Time: 10 min.
Cure Time: 1 hr.
Finished Color: Clear

Permatex® Marine H2 Epoxy bonds underwater without breaking. This industrial strength epoxy is ideal for portable water tanks, fuel tanks, drains, boats and other main components that are exposed to salt or fresh water.

- Flexible water-proof adhesive
- Sticks and cures underwater
- Shock & vibration resistant

Item # 84200

4000 PSI SHEAR STRENGTH

BONDS TO:
- Fibreglass, PVC, Metal, Wood, Plastics and more!

Set Time: 15 min.
Cure Time: 1 hr.
Finished Color: Off-white

**Steel Weld™ Epoxy** 4500 PSI SHEAR STRENGTH

Permatex® Steel Weld™ is a multi-metal epoxy adhesive that eliminates the need for welding or brazing. Resistant to water and solvents, this steel weld epoxy is ideal for sealing welded seams, filling metal cracks and mounting metal components.

- Steel reinforced epoxy
- Can be machined, sanded, drilled
- Ideal for metal to metal bonding

**BONDS TO:**

- Steel, Stainless Steel, Iron and Other Metals

Set Time: 5 min.  | Cure Time: 10 min.  | Finished Color: Metallic Grey

**Black Plastic Welder™** 3500 PSI SHEAR STRENGTH

Permatex® Black Plastic Welder™ forms a tough durable bond to most plastics, composites, ceramics and wood in any combination. The black formula blends with black plastic surfaces such as bumpers and trim, delivering a clean finish.

- Forms bonds stronger than plastic
- Non-sagging no-clamp formula
- Weatherproof & UV stable

**BONDS TO:**

- Hard Plastic, Metal, Fiberglass, Chrome & Ceramic

Set Time: 5 min.  | Cure Time: 10 min.  | Finished Color: Black

**Wood Epoxy** 2000 PSI SHEAR STRENGTH

The only wood epoxy to incorporate cellulose, the primary substance of the cell walls of green plants. This organic ingredient gives the strength, color and behavior of natural wood. It requires less clamping than standard wood epoxies and will not penetrate into the wood.

- Wood reinforced epoxy
- Can be sanded and stained
- Outperforms standard wood glues

**BONDS TO:**

- Furniture, Doors, Windows, Trim/Molding, Decks

Set Time: 5 min.  | Cure Time: 1 hr.  | Finished Color: Tan
